

AVINASH YADAV

SOFTWARE DEVELOPER | FULL STACK DEVELOPER
MACHINE LEARNING ENTHUSIAST

PROFESSIONAL EXPERIENCE

SHIFT INCHARGE – ZEPTO

20th February 2025 – 20th April 2025

- Managed daily shift operations and coordinated team activities.
- Ensured smooth workflow and timely task completion during assigned shifts.
- Handled attendance, workforce coordination and operational support.
- Developed leadership, communication and team management skills in a fast-paced environment.

MACHINE LEARNING INTERN – SAIKET SYSTEMS

23rd May 2025 – 23rd June 2025

- Worked on machine learning models, data preprocessing and prediction-based projects.
- Implemented ML algorithms and evaluated model performance.
- Gained hands-on experience in real-world machine learning workflows.

PROJECTS

1

AURAMAIL – AI-Powered Email Monitoring & Notification Platform

Auramail is a website made for the people who do not care about mails. It connects to your Gmail account and monitors your mails and if any important mail comes it sends direct notification to your WhatsApp number including the details and what you should do for the mail.

Tech Stack: Python, Gmail API, WhatsApp API, HTML, CSS, JavaScript, Flask

2

TELCO CUSTOMER CHURN PREDICTION

Machine learning project to predict customer churn using classification algorithms. Performed data analysis, feature engineering and built models to help in customer retention strategies.

Tech Stack: Python, Pandas, Scikit-learn, Matplotlib, Seaborn

3

HOSPITAL MANAGEMENT SYSTEM

A web application to manage patient records, appointments, doctors, billing and overall hospital operations.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

4

TRAVEL BOOKING SYSTEM

A platform for user to search, book and manage travel tickets and reservations with secure authentication.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

5

AVI PROGRAMMING LANGUAGE

Designed and implemented a custom programming language including compiler, lexer, parser and interpreter.

Tech Stack: C, C++

6

GIT CANTEEN

A web-based canteen management system for menu management, orders, billing and feedback handling.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

ACHIEVEMENTS & INTERESTS

- Passionate about building real-world solutions and exploring new technologies.
- Active learner and problem solver.
- Interested in Machine Learning, Web Development and System Design.
- Love to build projects and contribute to open source.

EDUCATION

B.Tech in Computer Science Engineering

Global Institute of Technology,
Jaipur

2025 – 2029

Currently completed
2nd Semester

10TH (CBSE)
78.3%

12TH (CBSE)
63%

SKILLS

- C, C++, Java, Python, JavaScript
- HTML, CSS, React.js, Node.js
- MySQL, MongoDB
- Machine Learning
- Data Structures & Algorithms
- OOP, DBMS
- REST APIs
- Git & GitHub
- Problem Solving
- Project Management

TOOLS & PLATFORMS

LANGUAGES

- Hindi (Native)
- English (Professional)
